

Braided retraction cord

COMPOSITION	<ul style="list-style-type: none"> • 100% bleached absorbent cotton • H2O2 bleached (non chlorine bleached, free of any optical brightener) • Meeting the European Pharmacopoeia Standards • In accordance with REACH European standards
BRAIDED RETRACTION CORD	<ul style="list-style-type: none"> • 300 cm long • Good protection of gingival wall thanks to the high density of the cord • Tensile strength: 47 N (test speed of 200 mm/min.) • Elongation at break : > 20% • Absorption capacity after 20 sec. = 3-5 g/g • Shelf life : 5 years from production date

The ALAN braided cord is denser than the knitted cord, which implies a stronger tensile strength and a bigger capacity of liquid absorption. It protects the sulcus against the instruments.

The glass bottle is more stable than a plastic one (exudation). The bottles are protected by punched moss. The bottle is provided with a cap dispenser spout to ensure the protection of the product.
